

FOR IMMEDIATE RELEASE
July 13, 2006
Mississauga, Ontario

Hayward Gordon is proud to announce relocation effective September 11th, 2006 to our new 50,000 square foot head office and plant on a 3.3 acre property in Halton Hills, Ontario.

EFFECTIVE: September 11th, 2006
5 Brigden Gate
Halton Hills, ON
L7G 0A3

Tel: 905-693-8595
Fax: 905-693-1452

This brand new modern facility is designed to incorporate the Mississauga head office and plant as well as the Burlington office and manufacturing plant that produces our Engineered Systems. The plant is designed for improvements in production as well as providing a new and expanded indoor test facility for pumps, mixers and systems.

The new facility is 12 km west of our current address between Mississauga and Milton, just north of Highway 401.

We are positioning the company for increased customer satisfaction and continued success as a leader in the manufacture of process equipment with a strong foundation to move ahead and grow well into the future.

We are always at the same address on the Worldwide Web, www.haywardgordon.com where you will find current announcements and information on our News & Events page.
