### ***HG Mixers selected for Osisko Mining Project***

Hayward Gordon has been awarded the contract to supply 20 leach tank mixers to Osisko Mining's, Canadian Malartic gold project. The leach tanks represent some of the largest currently used anywhere in the world and are designed to help produce over 500,000 oz. of gold per year.

Osisko Mining Corporation holds a 100% interest in the Canadian Malartic gold deposit in Quebec, Canada, one of the world's best mining jurisdictions. [www.osisko.com](http://www.osisko.com)
